

This is a sample pdf file. Open the file “index.html” and set the configuration option “pdf” to the url of your pdf file.

To render pdf files wowbook uses the library “pdf.js” by Mozilla, this is the same library used by the browser Firefox.

PDF.js works in the following browsers: Firefox, Chrome, Opera, IE10+. Limited support for Safari, Android and IE9. Not supported on IE8. For more information [click here](#)

[Click here to see what you can do to optimize your pdf file.](#)

IMPORTANT: the pdf file cannot be accessed locally. You need to use a webserver to serve the pdf file or change the browser configuration to allow it, like explained below:
